

Anti- human IFN- α 1 (clone falfa-1)

Catalog No: MP-AA-21

BACKGROUND

IFN-alfa is a family of 20 proteins which are secreted predominantly by B and T lymphocytes. In conjunction with IFN-beta plays a major role in innate immunity toward viral pathogens.

PRODUCT

Each vial contains the indicated amount of IgG (HPLC, Prot. A) in 0,1% gelatine and 0,05% NaN₃.

SUBCLASS

Mouse IgG1

SPECIFICITY

IFN alfa 1

STORAGE

Store frozen, avoid repeated freeze-thawing. Stable for 2 yrs.

SHIPPING CONDITIONS

Room temperature.

RESEARCH USE

This antibody is for laboratory research use only, not for human or in-vivo use.

APPLICATIONS

See enlisted references
